Lesson Plan Template

Teacher's Name:

Subject:

Grade Level:

Date:

Duration:

General Objectives:

(What students are expected to achieve by the end of the lesson/unit)

Specific Objectives:

(Precise, measurable outcomes for the lesson)

Prior Learning:

(What students need to know or have learned before this lesson)

STEM Integration:

(How science, technology, engineering, and mathematics are incorporated into the lesson)

MOESYI Goal:

(Reference the Ministry of Education, Skills, Youth, and Information's specific goal for the subject or lesson/education)

School Objective:

(School-wide or institutional objectives relevant to this lesson)

Instructional Resources:

(List all materials, tools, and resources needed for the lesson)

Instructional Methods:

(Describe the teaching strategies or approaches used during the lesson)

Attitude:

(Focus on the desired attitude or mindset that students should demonstrate during the lesson)

Introduction:

(Engage students and set the context for learning, activating prior knowledge)

Planning and Delivery (5E Model):**Engage:**

(How will you capture students' interest and introduce the lesson's topic?)

Explore:

(What hands-on activities or experiences will students have to explore the concept?)

Explain:

(What direct instruction or clarification will be provided to explain the concept?)

Elaborate:

(How can students apply the concept in different contexts or extend their understanding?)

Evaluate:

(How will you assess students' understanding and mastery of the objectives?)
